

FINAL PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) has received the subgrant application for Miami-Dade County Public Schools' Miami Springs Senior High School repairs due to damages in Hurricane Irma (DR-4337-FL PW-08456). Pursuant to Executive Order 11988 and 44 CFR Part 9.12, final notice is hereby given of FEMA's intent to provide funding for this project under the Public Assistance (PA) Program.

An initial disaster-wide Public Notice was published October 06, 2017 for Hurricane Irma. Comments and other information received were fully evaluated by FEMA along with evaluation of social, economic, environmental, and safety considerations. This notice serves as a project-specific final notice for FEMA's funding action located within the floodplain.

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state and local laws, regulations, floodplain standards, permit requirements and conditions. This action complies with the National Flood Insurance Program (NFIP) requirements.

- Responsible Entity:** FEMA Public Assistance (PA) Program
- Applicant:** Miami-Dade County Public Schools
- Project Title(s):** PA-04-FL-4337-PW-08456 PN 66082 - MAINT ZONE 2 SCHOOLS
- Location of Proposed Work:** GPS Coordinates: (25.830444, -80.294333)
- Floodplain:** Project is located in the AH Zone per Miami-Dade County FIRM Panel #12086C0283L dated 09/11/2009.
- Proposed Work and Purpose:** Miami-Dade County Public Schools will restore Miami Springs Senior High School, damaged as a result of Hurricane Irma, back to its pre-disaster condition. Repairs will include replacing elastomeric (acrylic rubber) roofing, chain-link fencing, and electric switch panel. Communication tower wires will also be repaired.
- Project Alternatives:** FEMA has considered the no-action alternative and has found that it would not be feasible as the area will remain vulnerable to further property damage and hazards to human life and safety. The no-action alternative would potentially have adverse social, economic, and public safety impacts to the community. Alternate locations were not considered as the facility is part of a larger complex of buildings and it would not be feasible to consider relocation as the buildings must be co-located to serve their function as an education facility.
- Comments:** This will serve as the final public notice regarding the above-described action funded by the FEMA PA program. Interested persons may submit comments, questions, or request a map of this specific project by writing to the Federal Emergency Management Agency, Region 4, 3003 Chamblee-Tucker Road, Atlanta, Georgia 30341 or by emailing FEMA-R4EHP@fema.dhs.gov. Comments should be sent in writing with the subject line FL-4337-PW-08456, Miami-Dade County Public Schools at the above address within 15 days of the date of this notice.
